WAREHOUSE CONSTRUCTION

OUR BACK GROUND

In the year of 1995, a partnership firm named as **Star Constructions** was formed by Sh. Amit Lakhanpal and Sh. Baswant Singh to do landscape development work on contract basis. Firm purchased number of heavy earthmoving machines for the purpose. The entrepreneurs worked together and moved ahead while creating a success story, on the route of mutual respect and understanding. Relentless hard work, commitment to maintain best quality standards in the construction industry and honesty has been the key factor of the progress. To sustain the progress to grow further partnership firm was changed in a Private Limited company with Sh. Amit Lakhanpal and Sh. Baswant Singh as founder director. Company was established on 01.03.2006 with the name **Starcon Infra Projects (I) Pvt Ltd**. Later Sh. Raj Kamal Bhatia and Sh. Satish Sharma also joined the company in the year 2006. Company marched a long way since then and got rewards & recognition for our contribution in infrastructural growth of our country.

Today our company is executing a large variety of construction projects with specialization in **Heavy Earth / Rock Excavation, Roads, Civil & Mechanical Construction / Erection**. We are also equipped with whole range of construction & material handling equipment, earthmovers and other support machineries of our own along with possessing expertise in their operation and repair maintenance. This looks after our in-house requirements and puts us ahead with an edge over others in the industry. In addition, our big pool of machinery equipment, plants etc. also provide services in the projects outside our company.

Company undertakes complete responsibility & ownership of a project including management, coordination, liaison and execution. In addition, company is committed to complete the orders within the time schedule and budgetary limits without any escalation. In this regards, company's performance have received appreciations from all quarters.

With a view to further grow and contribute to Nation's growth, company is diversifying its activities into Ground Engineering. Ground Engineering is used for Deep and Sensitive Excavation works like Metro Railways and excavation works in thickly populated areas by construction of

- Diaphragm wall,
- Secant Pile wall,
- Sheet Pile wall,
- Piling and
- Anchors

Along with the dewatering work.

Company acquired 100% stake in **M/S IPEX Infrastructure (P) Ltd**, A Chennai Based Company. Ground Engineering work/ contract will be done through this subsidiary. Piling Rigs and other equipment are being acquired for the purpose. There has successfully completed various projects with CMRL & DMRC.

THE DYNAMIC COOPERATION

At the heart, Star's momentum lay with a thorough understanding of constantly changing difficult working conditions & environment, never get contented with past performance / appreciations. Starcon's hallmark has throughout been its rock solid firm belief in own abilities and endeavor to persistently updating ourselves with forward and lateral thinking.

Pledge to send ahead of times, readiness to adopt new technologies & upgrade the existing one, bringing about novel structural reforms based upon systemic approach, quality control concepts, upgrading skills of professionals & laborers parallel with latest scientific developments and humane HR approach is our constant source of energy.

RESPONSIBILITIES UNDER OUR SCOPE

- Coordination with all related agencies
- Execution of assigned work & completion of projects on schedule.
- Meeting all Quality Standards promulgated by various agencies.
- Planning and monitoring of the progress in terms of cost and quantity.
- Preparation of management information reports.
- Planning resources and procurement of capital materials / other resources required.
- Modern safety measures adaptation.
- Ensuring existing ecological balance remains harmless.
- Ensuring use of environmental friendly techniques / methods in execution.
- Endeavour to use non-conventional energy resources.

EQUIPMENT HIRING / RENTING

The Strong foundation of this company rests with owning powerful fleet of Construction Equipment. In fact, the company began with providing entire range of specialist services of construction Equipment. The company climbed on to the construction field with the strong backup from its solid foundation and continued further strengthening its core specialization.

Today, the company owns a professionally managed hub of construction equipment & support machinery lineup. This ever-growing contingent is comprised of approximately 150 capital machines. There is a qualified and experienced battery of Engineers, Technicians, Drivers and Operators to service, maintain and keep them serviceable and operational at all times.

Here, at the machinery wing of our company, the prime motto is to keep our technical standards at par. We achieve this by using best quality of spares, oil & lubricant, carrying out timely servicing and through implementing preventing maintenance in true spirits. Constant training, sincerity and commitment to our company mission “To be in the fore front of our industry” have been the seed of our growth and success.

Our aim, while in providing services of construction equipment to our clients, is:-

- Providing equipment with operational state.
- Zero lay off because of breakdown and servicing.
- Prompt replacement by serviceable machine in case of major Break down.
- Providing disciplined punctual and efficient operators and Coordinating staff to achieve hassle free operations at client's site.
- Best cooperation with client's site staff to help them achieve their target at the earliest.

Our clients' appreciation letters to recognize our quality service is the token of our professionalism and commitment. All these have been energizing us to constantly progress and become one of the leading entities in the field of 'Hiring Segment'.

S.H.E POLICY

- We follow an approved standard documented procedure to define and meet the requirement for Occupational Health and Safety (OH&S) Management system. The company is accredited to
- ISO 18001:2007 **Occupational Health and Safety Management system certification from JAZ ANZ has been obtained.** This gives us confidence to eliminate or minimize risk to our employees and other parties involved in execution at sites. We plan, act upon and take corrective measures while operating on ground by checks and balance system. In addition, we do continuous review and update / improvement in our existing procedures and measures.

Environmental Conservation: - We at Starcon Infra Projects always put in our best efforts for conservation of environment and have this precedence while evaluating the projects.
We are committed to follow:

- Environmental friendly construction methodologies
- Use of non-conventional sources of energy to extent feasible
- Make all efforts for protecting and enhancing greenery of the crust
- Also, create awareness amongst employees and all other parties that come across. Our motto is Example is better than precept in preserving the existing ecological balance of the earth.

Our Company is **an ISO 9001:2008** certified company. We have a system approach to **Quality Management System Standard** that addresses customer satisfaction by its effective application. We have documented quality policy objectives. The results are audited to ensure conformance and control of nonconformity. Employees are trained to get them acquainted for strict adherence to establish quality assurance system, achieve, and maintain the required standards. Star constructions have never been averse to adopt these measures.
